How We Measure Quality-of-Care

This Skilled Nursing Facility Provider Profile was created to help you select a local center with a history of success serving patients with conditions similar to yours. This profile includes information about the quality, value, and clinical services delivered at each center. We utilized Medicare Star Ratings (available at <https://data.medicare.gov/>), historic Medicare claims data for patients served at each center, and information reported by each center to understand the capabilities and services available.

Skilled Nursing Facility Provider Profile

Quality Information Highlighted

Although this profile highlights your local options, understanding a center's performance compared to national practices can be a helpful way of assessing quality.

Category	Fair	Good	Excellent
Medicare Star Ratings	1-2 Star Overall Rating	3 Star Overall Rating	4-5 Star Overall Rating
Therapy Availability	The number of days per week any therapy disciplines are available to the patient.		
Readmission Rating	The center falls at or below the 40th percentile for preventing short-stay patients from being re-hospitalized after a nursing home admission.	The center falls between the 40th & 60th percentiles for preventing short-stay patients from being re-hospitalized after a nursing home admission.	The center falls above the 60th percentile for preventing short-stay patients from being re-hospitalized after a nursing home admission.
Clinical Specialty Programs	Data gathered by on-site Evaluation verifies that centers have an enhanced clinical Program specialist physician oversight for these service areas, indicating an increased focus and level of service for specific conditions.
